

## July 2010 Newsletter

Hey Mums and Dads

Hope that you are all having a great time this summer because the children sure are having lots of fun.

As always the children have been making, discovering and learning through play with these months summer orientated activities. We have made fish tanks and lots of under the sea creature mobiles to hang around the nursery and for the kids to take home. We have also painted and decorated some shells that they all enjoyed very much.

As you already know Friday is cooking day and the children have all been busy doing their cooking activities, which have varied from fairy cakes, cheese twist to summer fruit ice lollies as part of the summer creative cooking.

We have also been having lots of water play in and outside the nursery as its so hot. The children have had a chance to cool down and at the same time having lots of fun, whilst learning through play.

Shortly we would like to arrange for a trip to the Alameda Gardens Wildlife animal park. Arrangements will be made and parents will be informed via a note in your child's bag. Please remember to check your child's bag for notes.

Please make sure that forms are signed and returned as soon as possible after you receive them. Children without consent forms signed by parents or carers will have to miss out on the outing.

As some of you may be aware our baby room has been reallocated and is much improved. Though still not totally ready the younger ones have benefited greatly from this change and are enjoying it immensely.

As you can imagine with the summer here these month's topics are based on under the sea creatures, sun, and sea so get ready parents for lots more coming up.

Thanks

Management and Staff
